

## BANASTHALI VIDYAPITH

### PROJECT REPORT

### DIVY DARSHAN

**(MANDIR DARSHAN, DONATION AND NGO WEBSITE)**

**MCA/MSc. CS M08**

Guided By:

Dr. Ashok Kumar

Submitted by:

Priyanshi Pal - 2142514

Khushi Gupta - 2142872

Avantika Pandey - 2142855

Laveena Tanwani - 2142879

## **ACKNOWLEDGEMENT**

We would like to express our gratitude towards **Mr. Ashok Kumar** for guiding us throughout the project and his tremendous direction and support in the completion of our project.

We also feel thankful and express our kind gratitude towards our Dean **Mrs Shailly Sharma** for allowing us to conduct **Divya Darshan** project.

The mentioned project was done under the supervision of **Mr. Ashok Kumar**. We are very much in debited to our inspiring faculty who had always been a source of inspiration to us during the course of this project. We thank all participants for their positive support and guidance.

Date: 25/04/2022

Priyanshi Pal

Khushi Gupta

Avantika Pandey

Laveena Tanwani

**CERTIFICATE**

Certified that **Priyanshi Pal, Khushi Gupta, Avantika Pandey, Laveena Tanwani** has carried out the project work titled **“Divy Darshan”** from February **2022 to April 2022** for the award of the **Masters of Computer Applications/ Masters in Computers Science** from **Banasthali Vidyapith** under my supervision. The thesis embodies result of original work and studies carried out by Student herself and the contents of the thesis do not form the basis for the award of any other degree to the candidate or to anybody else.

(Dr.Ashok Kumar)

Designation: Professor

Place: Banasthali Vidyapith

Date: 25/04/2022

## **ABSTRACT**

The project ‘Darshan & Donation System’ is a web-based application. This software provides user the facility to apply for joining live Aarti and to apply for epass for offline darshan and also provide a platform for online donation to Temples and NGO as per their choice. This system allows user to sign in and view details about Temples and NGOs. The registered user can also update its profile. They can also ask any query and give feedback to website.

## **MODULES**

### **REGISTERED USERS –:**

- User has the permission to search and view for Temple and NGO details
- Join free darshan
- Apply for live aarti
- Apply for epass
- Donate to Temple or NGO
- View and update user profile
- Ask query
- Give feedback.

### **ADMIN –:**

- Admin has the permission to view users
- Aarti and epass bookings, all donations, queries and feedbacks
- Has the permission to view, edit, delete Temple details, Aartis of Temple, NGO details and Calendar.

## **FEATURES**

This project requires you to build a fully functional application that allows users:

- Register and login into the system.
- Visit temple pages, read history of temples or view the location of temples.
- Apply for joining live Aarti. User will get a mail having a link and password to join Aarti.

- Fill an E-pass form for offline darshan. They will be provided by a ticket id which they need to show while visiting the temple.
- Donate money in temple and Ngo. The name of users will be shown on our website if they want to.
- View location of various temples and NGOs associated with our website.
- View all the past payments made by them in their respective profile section.
- View the upcoming festivals.
- List of the users who donated money in various temples or NGO's.
- Ask any Query and give their feedbacks.
- Connect with us on our social media handles.
- Contact our team.
- Logout from the system

## **1. OBJECTIVE**

The objective of our website is to provide online as well as offline darshan to the users. The users can also donate money in several NGO's as well as temples through our website if they are willing to do so. For offline darshan the users need to fill an E-pass form and then they will be provided with an email in which there will be a ticket id and arrival date. The users need to follow all the guidelines for visiting the temples and the maximum capacity will be 5 people per E-pass. For online darshan the users need to fill an Aarti registration form then they will be provided with an email in which there will be a Darshan link, date for Aarti and a password. The users can also do free online darshan from our website for which link will be given on our homepage. While giving the donation the users will be provided with an option of selecting donate in temple or donate in NGO. If the donors want to display their name on our homepage, they will be given an option as "want to show name". The users can also view the list of upcoming festivals through our website. The users can also view all the payments which they have made in their respective profiles.

## **2. REQUIREMENT ANALYSIS (SRS)**

### **2.1 Requirement specification**

#### **2.1.1 Product Functions**

Users can:

- Register/login into the system.
- Visit temple pages, read history of temples or view the location of temples and can also contact them directly.
- Book a ticket for online darshan by filling an Aarti registration form. They will be provided with a link and password to join the aarti.
- Fill an E-pass form for offline darshan. They will be provided by a ticket id which they need to show while visiting the temple.
- Donate money in temple and Ngo. The name of users will be shown on our website if they want to.
- View location of various temples and NGOs associated with our website.
- View all the past payments made by them in their respective profile section.
- View the upcoming festivals.
- List of the users who donated money in various temples or NGO's.
- Contact the admin and give their feedbacks.
- Connect with us on our social media handles.
- Contact our team.
- Logout from the system

#### **2.1.2 Hardware Interface**

Server side:

- RAM: 512 MB
- HDD: 20 GB or more (Free space excluding data size)
- Processor: 1-2 GHz (P4) or onwards

Client Side:

- RAM: 128 MB
- HDD: 10 GB or more (Free space excluding data size)
- Processor: 450 GHz (P2)

### **2.1.3 Software Interfaces**

Server Side:

- OS: Windows Server 2000 or onwards
- Web Server: IIS 5.0 or onwards with ASP.Net framework

Client Side:

- OS: Any OS
- Browser: Any browser compatible with IE 5.0 or onwards

### **2.1.4 Communication Interface**

- Clients on the Internet will be using HTTP/HTTPS protocols.
- Clients on Intranet will be using TCP/IP protocols.

## **2.2 H/w and S/w Requirements**

Hardware Interface

Server side:

- RAM: 512 MB
- HDD: 20 GB or more (Free space excluding data size)
- Processor: 1-2 GHz (P4) or onwards.

Client Side:

- RAM: 128 MB
- HDD: 10 GB or more (Free space excluding data size)
- Processor: 450 GHz (P2)

Software Interfaces

Server Side:

- OS: Windows Server 2000 or onwards
- Web Server: IIS 5.0 or onwards with ASP.Net framework

Client Side:

- OS: Any OS
- Browser: Any browser compatible with IE 5.0 or onwards

### **2.3 Feasibility Study:**

- Our website is feasible for the users as they can easily book their tickets and access free darshan. It will be easy for them to donate money in temples or NGO's by just entering the amount.
- Our website is financially feasible as all the payments made by the users are directly send to the temples or NGO's. We are also collaborated with various companies by providing their ads on our website.
- We help various NGO's by providing donations via users.

### **2.4 Functional Requirements**

#### **2.4.1 Validity checks on input**

- Email - Must end with @gmail.com
- Password - Must contain:
  - : Uppercase
  - : Lowercase
  - : Digits
  - : Special characters
- Confirm Password - the password should match with the entered password.
- Contact number - Must be of exactly 10 digits
- Dates - Must enter a valid and available future date
- Timing - choose the aarti timing from 24 hours clock.
- No. of people - maximum no of people allowed for offline darshan is 5.
- First name and last name - should not be left empty
- Temple/Ngo – should choose any temple or NGO during the donation.
- Amount – must not be left empty.

#### **2.4.2 Sequence of operations**

- If the user is not registered, they can view:
  - Home page of our website.
  - Location of several temples and Ngo's through map
  - List of temples and Ngo's.
  - About our website.
  - List of upcoming festivals.
  - Contact us.

- Several ads on our website.
- Connect with us on our social media handles.
- After registration and log in the users can:
  - View home page of our website.
  - View information about temples and Ngo's and can even contact them.
  - Fill E-pass and Aarti registration form
  - View location of several temples and Ngo's through map.
  - Donate money in temple or Ngo if they wish to do so.
  - View past payments made by them in their profile.
  - View list of upcoming festivals.
  - List of the users who donated money in various temples or NGO's.
  - View about our website.
  - Contact us
  - Give their feedback
  - View several ads on our website.
  - Connect with us on our social media handles.
- Admin panel: After log in the admin can view and edit the details of-
  - Temples
  - NGO's
  - Aarti
  - Calendar

Admin can view details of-

  - Users
  - Aarti Booking
  - E-pass
  - Donation
  - Query
  - Feedback

#### **2.4.3 Response to abnormal situations (error handling, overflow, recovery)**

A popup message or alert message will be displayed on the screen.

## **2.5 Non-functional Requirements (Software System Attributes)**

### **2.5.1 AVAILABILITY**

The availability of this web-site is up to the Internet connection of the client. Since this is client-server related web-site shall be attainable all the time. User should have an account to enter the system; if user does not have an account then user can only see the information which will be displayed on the homepage of the web-site.

### **2.5.2 SECURITY**

The authorization mechanism of the system will block the unwanted attempts to the server and also let the system decide on which privileges may the user have. The system has different types of users so, there are different levels of authorization.

### **2.5.3 RELIABILITY**

A backup file is maintained so that in case of system crash, the data will not be affected.

### **2.5.4 PORTABILITY**

The system is developed using ASP.Net which provides a framework for developing web-based applications.

### **2.5.5 MAINTAINABILITY**

This website will follow the modular structure so it will be easy to maintain.

## 2.6 USE-CASE DIAGRAMS

The diagram is a graphic depiction of the interaction among the elements of Divy Darshan. The main actors of Divy Darshan System in use case diagram are: Admin and User.

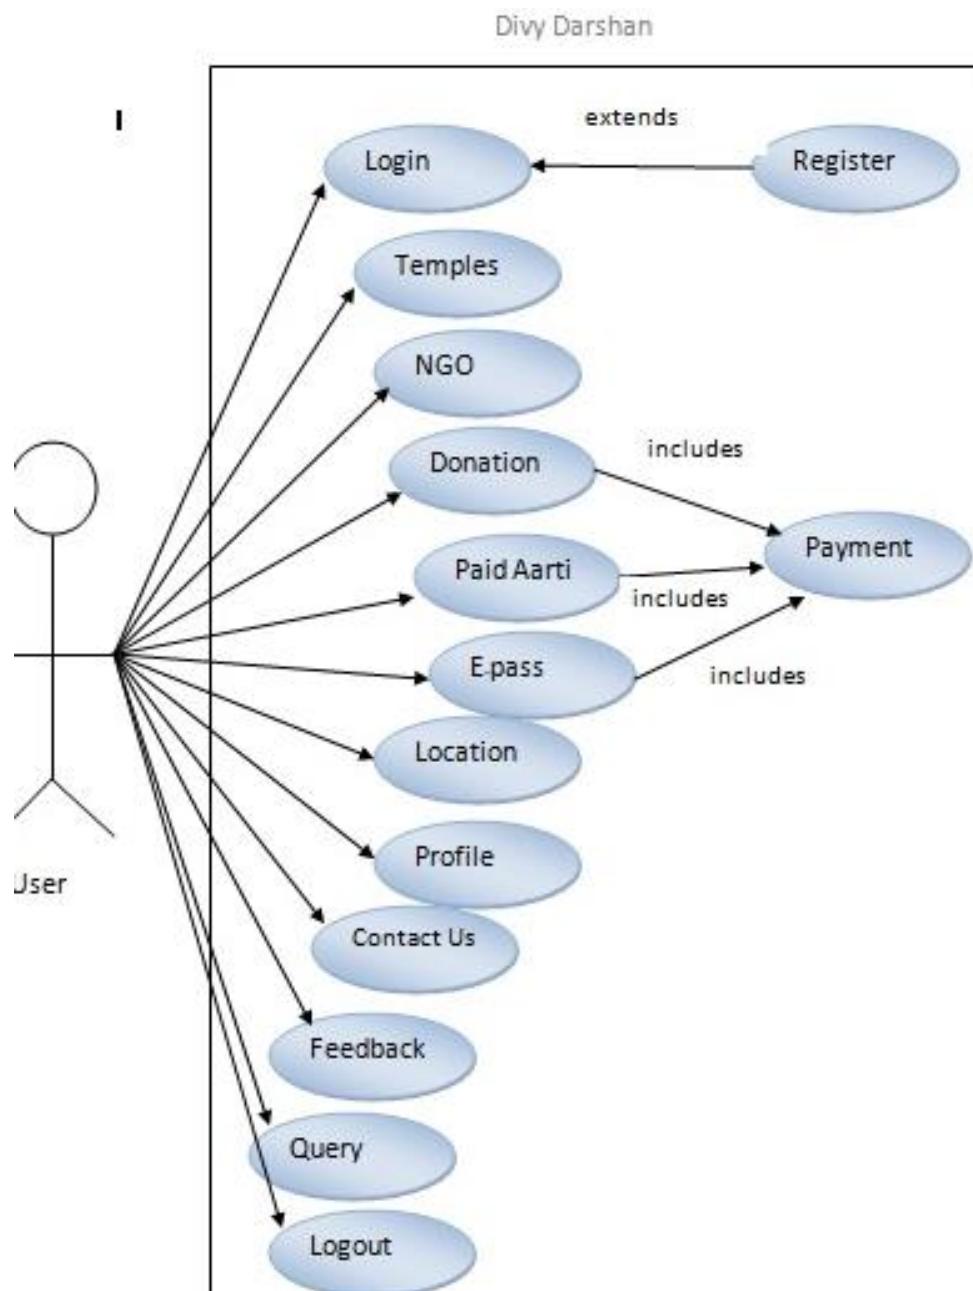

The relationship between among the actors and the use cases of Divy Darshan are:

- User Entity: Use cases of User entity are Register, Login, Temple, NGO, Location, Profile, Free Aarti, Paid Aarti, E-Pass, Donations, payments, Contact us, Feedback, Contributors and Logout.
- Admin Entity: Use cases of Admin entity are Login, Users, Temples, NGO's, Aarti, Aarti Bookings, E-pass, Donation, Query, Feedback, Calendar and Logout.

The functional requirement giving by various use cases for user:

- Register: Users can register on the website and access the benefits like free darshan, paid Aarti, donation, visit their profile to view past payments, location of several temples and NGO's.
- Login: If user already have an account on the website, it has to login with email and corresponding password.
- Temple: Users can view details of various temples collaborated with the website.
- NGO: Users can see the details of various NGOs on the website.
- Paid Aarti: User can view live aarti of any temple for which he/she has registered. Payment will be necessary. Link with password will be provided on their respective email.
- E-pass: User can get an E-pass for visiting the temples. Ticket Id will be provided on their respective email.
- Donation: Users can make donations for temples or NGOs. Confirmation will be sent on their mail id. Its optional for the users to display their name on our website or not.
- Location: Users can view location of various temples and NGO's associated with our website.
- Profile: Users can check their past payments here they can also update their profile for examples update their email address.

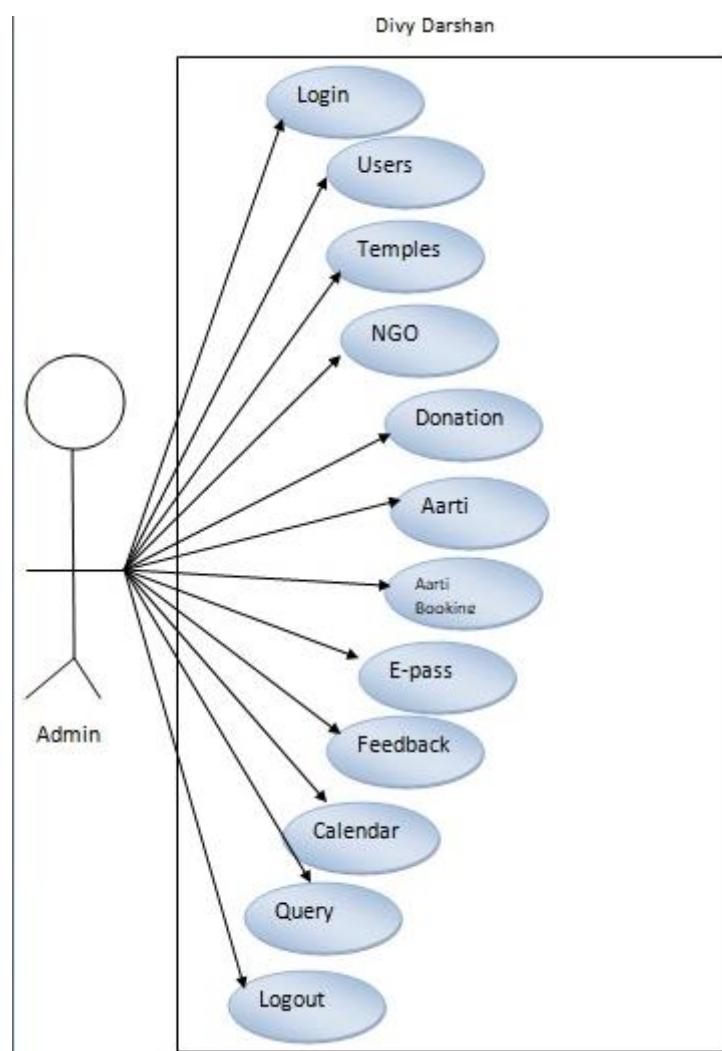

- Contact Us: Users can contact Admin/Temple management/NGO management for any information.
- Feedback: Users can give feedback regarding their experience.
- Logout: Users can log out from the website.

The functional requirement giving by various use cases for admin:

- Login: Admin can login to the admin panel to manage the website.
- Users: Admin can view user's details who access the website.

- Temple: Admin can manage the temple details such as locations, scheduling hours, information etc.
- NGO: Admin can manage the NGO details.
- Donation: Admin can view the donations made by the users.
- Aarti: Admin can manage the aarti links of the temples.
- Aarti bookings: Admin can view the details of users who have filled form for online aarti darshan.
- E-pass: Admin can view details of the users who have booked their tickets for offline darshan.
- Query: Admin can manage the queries which are asked by the users
- Calendar: Admin can manage and edit the upcoming festivals in the calendar.
- Feedback: Admin can manage the feedback which is given by the users.
- Logout: Admin can logout from the panel.

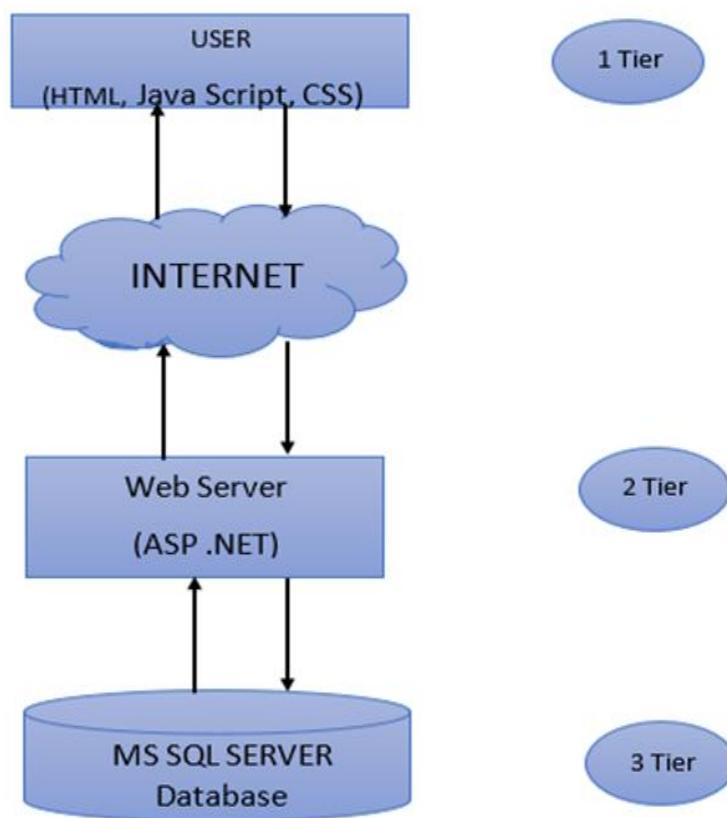

## **3 SYSTEM DESIGN**

### **3.1 High level Design**

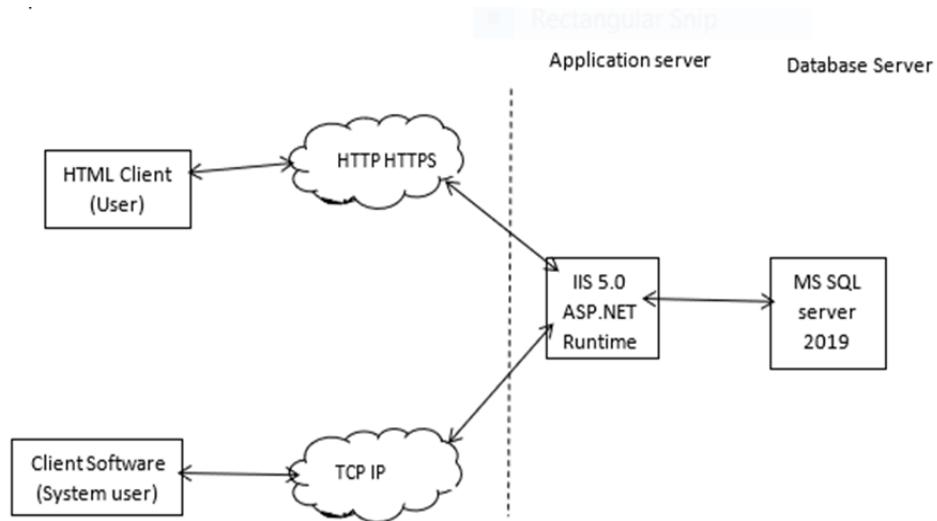

#### **3.1.1 System Level Architecture**

A system architecture is a conceptual model that defines the structure, behaviour, and more views of a system. An architecture description is a formal description and representation of a system, organized in a way that supports reasoning about the structures and behaviours of the system.

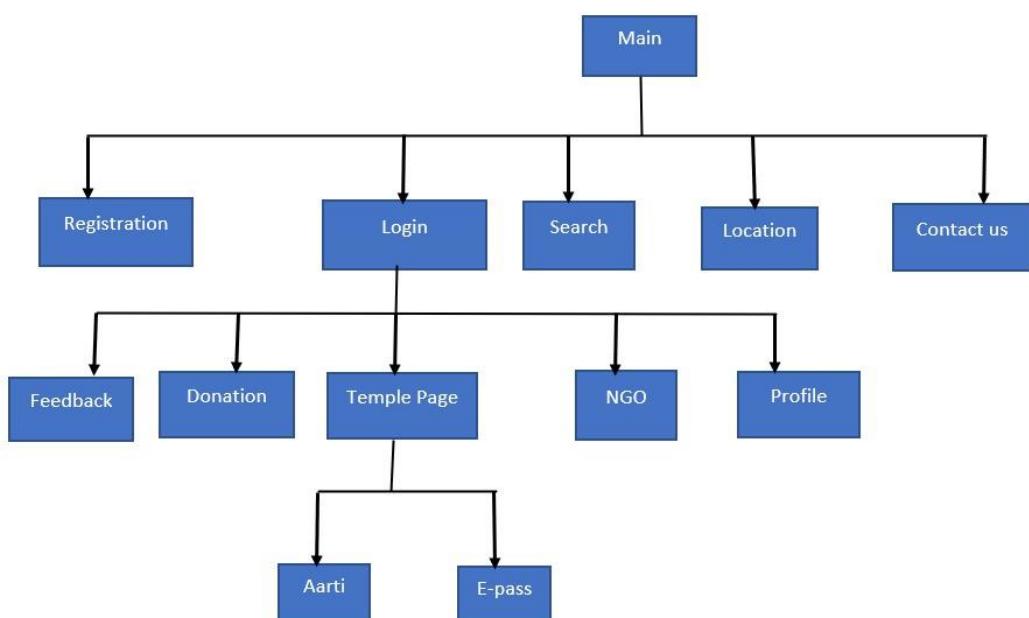

### 3.1.2 Client Server Architecture

MS SQL uses a Client/ Server architecture. This architecture has a server side and a client side. Server side includes Application server (IIS 5.0 ASP.NET Runtime) and Database server (MS SQL server 2019). They control the access, fetching, presenting and operations performed on the data. Client-side applications are the programs that communicate with the server. Client and Server establish Communication protocols (TCP/IP) to interact with each other.

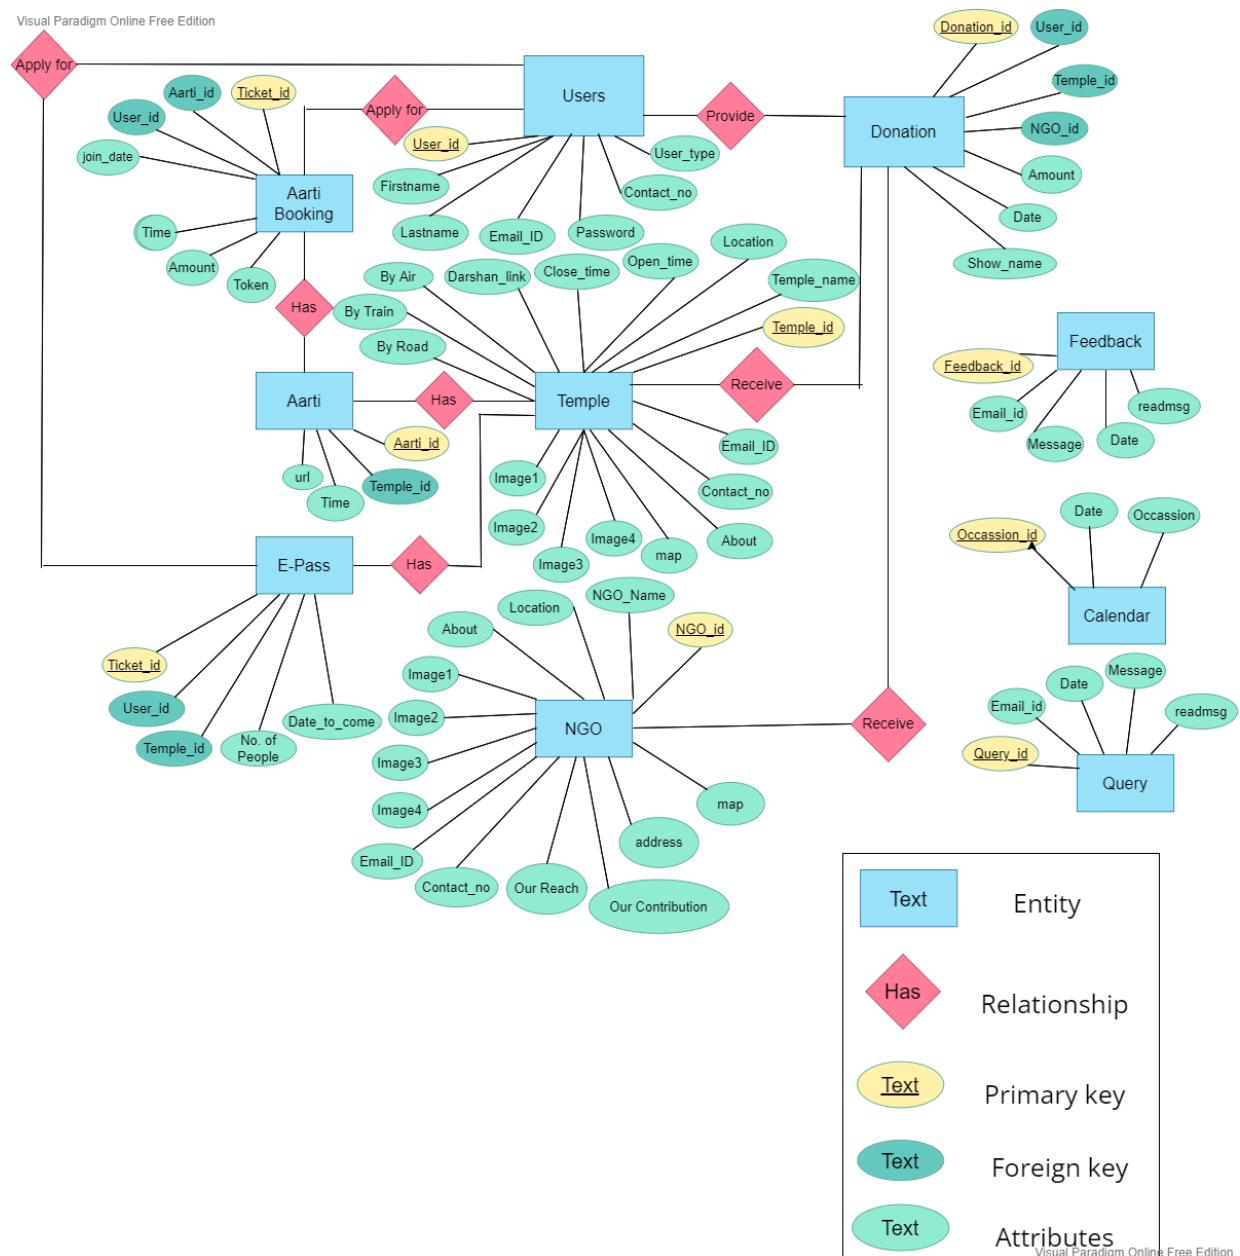

### 3.1.3 Software Architecture

The software architecture of a program or computing system is the structure or structures of the system, which comprise software elements, the externally visible properties of those elements, and the relationships among them.

### 3.2 ER Diagram

The Entity Relationship Diagram (ERD) for the ‘Online Mandir Darshan, NGO and Donation System’ is presented above. The purpose of the ERD is to illustrate the basic data abstraction for the system. Each entity in the above diagram is described as a Rectangular Box. Within the implementation, an instance of an entity will represent a line in a table corresponding to that entity. For example, a user's entity corresponds to the list of users in the database.

An instance of an entity composed of many data items. These data items are fields or columns in the table of the entity. Each data item represents an attribute of the entity. Each entity contains one or more attributes which uniquely identifies an instance of the entity, these attributes are called the key attributes or Primary key. The Primary key can be used to retrieve or delete information from the entity table.

### **Users Entity:**

The Users entity table contains the following data items:

- user\_id
- First\_name
- last\_name
- password
- email id
- Contact no
- User\_type

The primary key of the Users entity is the **user\_id**.

### **Login Entity:**

The Login entity table contains the following data items:

- user ID
- password
- email ID
- user type

The primary key of the Login entity is the **user ID**.

**Temple Entity:** The Temple entity table contains the following data items:

- temple ID
- name of temple
- Location
- email ID
- contact no
- About
- Image
- Open time

- Close time
- Darshan link
- By air
- By train
- By road
- map

The primary key of the Temple entity is the **temple ID**.

### **Aarti Registration Entity:**

The Aarti Registration entity table contains the following data items:

- ticket\_id
- user\_id
- Arti\_id
- join\_date

The primary key of the Aarti Registration entity is the **ticket\_id**.

### **Arti Entity:**

- Arti\_id
- Temple\_id
- time
- url

### **E-pass Entity:**

The E-pass entity table contains the following data items:

- Ticket\_id
- user\_id
- date\_to\_come
- no.\_of \_people
- temple\_id

The primary key of the E-pass entity is the **ticket\_id**.

### **Donation Entity:**

The Donation entity table contains the following data items:

- donation\_id
- user\_id
- date
- amount
- temple\_id
- ngo\_id
- show name/ anonymous

The primary key of the donation entity is donation\_id.

### **Query Entity:**

The query entity table contains the following data items:

- query\_id
- email ID
- message
- Date
- Readmsg

### **Feedback Entity:**

The Feedback entity table contains the following data items:

- feedback ID
- email ID
- message
- Date
- Readmsg

### **Calendar Entity:**

- Occasion\_id
- Date
- Occasion

### **NGO entity:**

- ngo\_id
- ngo\_name
- location
- email\_id
- concat\_no
- about
- image
- Our reach
- Our contribution
- address

### **Relationships**

For the ‘Online Mandir Darshan, NGO and Donation Website’, there are following relationships between the objects. The relationships are:

1. A user can apply for live Aarti, Epass ticket or donation.
2. A temple has online aarti and offline arti, e-pass or donation.
3. An online aarti, e-pass provides booking.
4. An online aarti, e-pass or donation.

In the ERD above, relationships are described in the diamonds. Each diamond corresponds to a table that relates some number of instances of one object to some number of instances of the other.

### 3.3 Database Design (Tables)

**TABLE 1: USERS**

Field	Type	Description	Constraint
User_id	VARCHAR(50)	Unique ID of Registered User	Primary Key
First_name	VARCHAR(50)	First Name of user	NOT NULL
Last_name	VARCHAR(50)	Last Name of user	NOT NULL
Email_ID	VARCHAR(50)	Email ID of user	NOT NULL
Password	VARCHAR(50)	Password of user	NOT NULL
Contact_no	VARCHAR(50)	Contact no. of user	NOT NULL
User_type	VARCHAR(50)	User is admin/user	DEFAULT (user_name()) NOT NULL

**TABLE 2: TEMPLES**

Field	Type	Description	Constraint
Temple_id	VARCHAR	Unique ID of Temple	Primary Key

temple_name	VARCHAR	Name of Temple	NOT NULL
Location	VARCHAR	Location of Temple	NOT NULL
Email_ID	VARCHAR	Email ID of Temple	NOT NULL
Contact_no	VARCHAR	Contact no. of Temple	NOT NULL
About	VARCHAR	About Temple	NOT NULL
Image1	VARCHAR(MAX)	Image1 of Temple	NOT NULL
Open_time	TIME	Time when the temple get open	NULL
Close_time	TIME	Time when the temple get close	NULL
Darshan link	VARCHAR(MAX)	Link for live aarti	NOT NULL

Image2	VARCHAR(MAX)	Image2 of Temple	NULL
Image3	VARCHAR(MAX)	Image3 of Temple	NULL
Image4	VARCHAR(MAX)	Image4 of Temple	NULL
By Air	VARCHAR(MAX)	Visit to temple by flight	NULL
By Train	VARCHAR(MAX)	Visit to temple by train	NULL
By Road	VARCHAR(MAX)	Visit to temple by roadways	NULL
map	VARCHAR(MAX)	location	NULL

**TABLE 3: AARTI**

Field	Type	Description	Constraint
Aarti_id	VARCHAR(50)	Unique ID of each aarti held in temple	Primary Key

Temple_id	VARCHAR(50)	Unique ID of temple	Foreign Key
Time	TIME	Time when the aarti occurs	NOT NULL
url	VARCHAR(50)	Link is provided for paid online arti	NOT NULL

**TABLE 4: AARTI BOOKING**

Field	Type	Description	Constraint
Ticket_id	VARCHAR(50)	Unique ID of Aarti Booking	Primary Key
User_id	VARCHAR(50)	Unique ID of user	Foreign Key
Aarti_id	VARCHAR(50)	Unique ID of aarti	Foreign Key
join_date	DATE	Date when user wants to join aarti	NOT NULL

**TABLE 5: E-PASS**

Field	Type	Description	Constraint
Ticket_id	VARCHAR(50)	Unique ID of Epass ticket	Primary Key
User_id	VARCHAR(50)	Unique ID of user	Foreign Key
Temple_id	VARCHAR(50)	Unique ID of Temple	Foreign Key

date_to_come	DATE	Date when user wants to join aarti	NOT NULL
No. of People	NUMBER	Maximum 5 people can come from 1 EPass	NOT NULL

**TABLE 6: NGO**

Field	Type	Description	Constraint
NGO_id	VARCHAR(50)	Unique ID of NGO	Primary Key
ngo_name	VARCHAR(50)	Name of NGO	NOT NULL
Location	VARCHAR(50)	Location of NGO	NOT NULL
Email_ID	VARCHAR(50)	Email ID of NGO	NOT NULL
Contact_no	VARCHAR(50)	Contact No. of NGO	NOT NULL
About	VARCHAR(MAX)	About NGO	NULL
Image1	VARCHARBLO(MAX)B	Image1 of NGO	NULL
Image2	VARCHAR(MAX)	Image2 of NGO	NULL
Our Reach	VARCHAR(MAX)	Reach to NGO	NULL

Image3	VARCHAR(MAX)	Image3 of NGO	NULL
Our Contribution	VARCHAR(MAX)	Contribution of NGO	NULL
address	VARCHAR(MAX)	Address of NGO	NULL

**TABLE 7: DONATION**

Field	Type	Description	Constraint
D_id	VARCHAR(50)	Unique ID of Transaction	Primary Key
User_id	VARCHAR(50)	Unique ID of user	Foreign Key
Temple_id	VARCHAR(50)	Unique ID of Temple	Foreign Key
NGO_id	VARCHAR(50)	Unique ID of NGO	Foreign Key
date	DATE	Date by the user	NOT NULL
Amount	INT	Amount user wants to donate	NOT NULL
Show_name	VARCHAR	Will be taken from checkbox and return 0 or 1	NULL

**TABLE 8: FEEDBACK**

Field	Type	Description	Constraint
Feedback_id	VARCHAR(50)	Unique ID of Feedback	Primary Key
User_id	VARCHAR(50)	Unique ID of user	Foreign Key
Temple_id	VARCHAR(50)	Unique ID of Temple	Foreign Key
ngo_id	VARCHAR(50)	Unique ID of NGO	Foreign Key
Message	VARCHAR(MAX)	Feedback given by user	NOT NULL
date	DATE	Date by the user	NOT NULL
read	bit	Read feedback	DEFAULT ((0)) NOT NULL

**TABLE 9: QUERY**

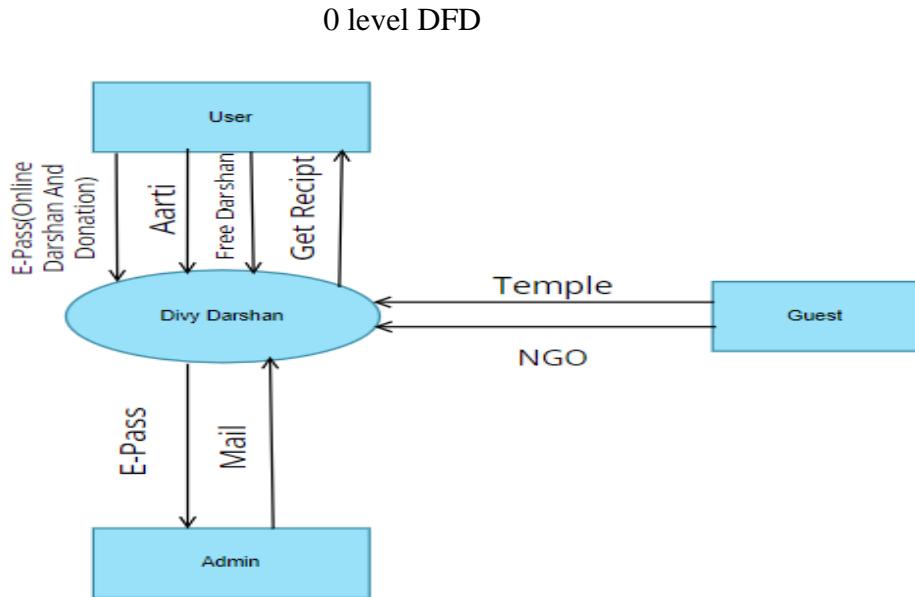

Field	Type	Description	Constraint
Query_id	VARCHAR(50)	Unique ID of Query	Primary Key
User_id	VARCHAR(50)	Unique ID of user	Foreign Key
Temple_id	VARCHAR(50)	Unique ID of Temple	Foreign Key

ngo_id	VARCHAR(50)	Unique ID of NGO	Foreign Key
Message	VARCHAR(MAX)	Message/ Query given by user	NOT NULL
date	DATE	Date by user	NOT NULL
read	BIT	Read Query	DEFAULT ((0)) NOT NULL

**Table 10:CALENDAR**

Field	Type	Description	Constraint
occasion_id	INT	Unique ID of occasion	Primary Key
date	DATE	Date by user	NOT NULL
occasion	VARCHAR(50)	Occasion	NULL

### 3.4 Data flow diagrams

It's a basic overview of the whole system or process being analysed or modelled. In the above DFD we can see:

- 1) The admin can:
  - a) generate the mail to the users for online darshan, aarti and E-Pass.
  - b) view the details of user, temple, NGO, aarti booking, epass registration and donation.
- 2) The users can:
  - a. Book their slots for visiting the temples through E-Pass.
  - b. Book tickets for online paid darshan.
  - c. They can also do online darshan for free by registering themselves on our website.
  - d. The users can get the receipt for the payments they have made for E-pass, donations, Arti
- 3) The guest can: View temples and NGOs without registering themselves on our website.

### 1 - Level DFD

It depicts basic modules in the system and the flow of data among various modules. In the above DFD we can see that:

1. The admin can:
  - a. Login into the system
  - b. Logout from the system.

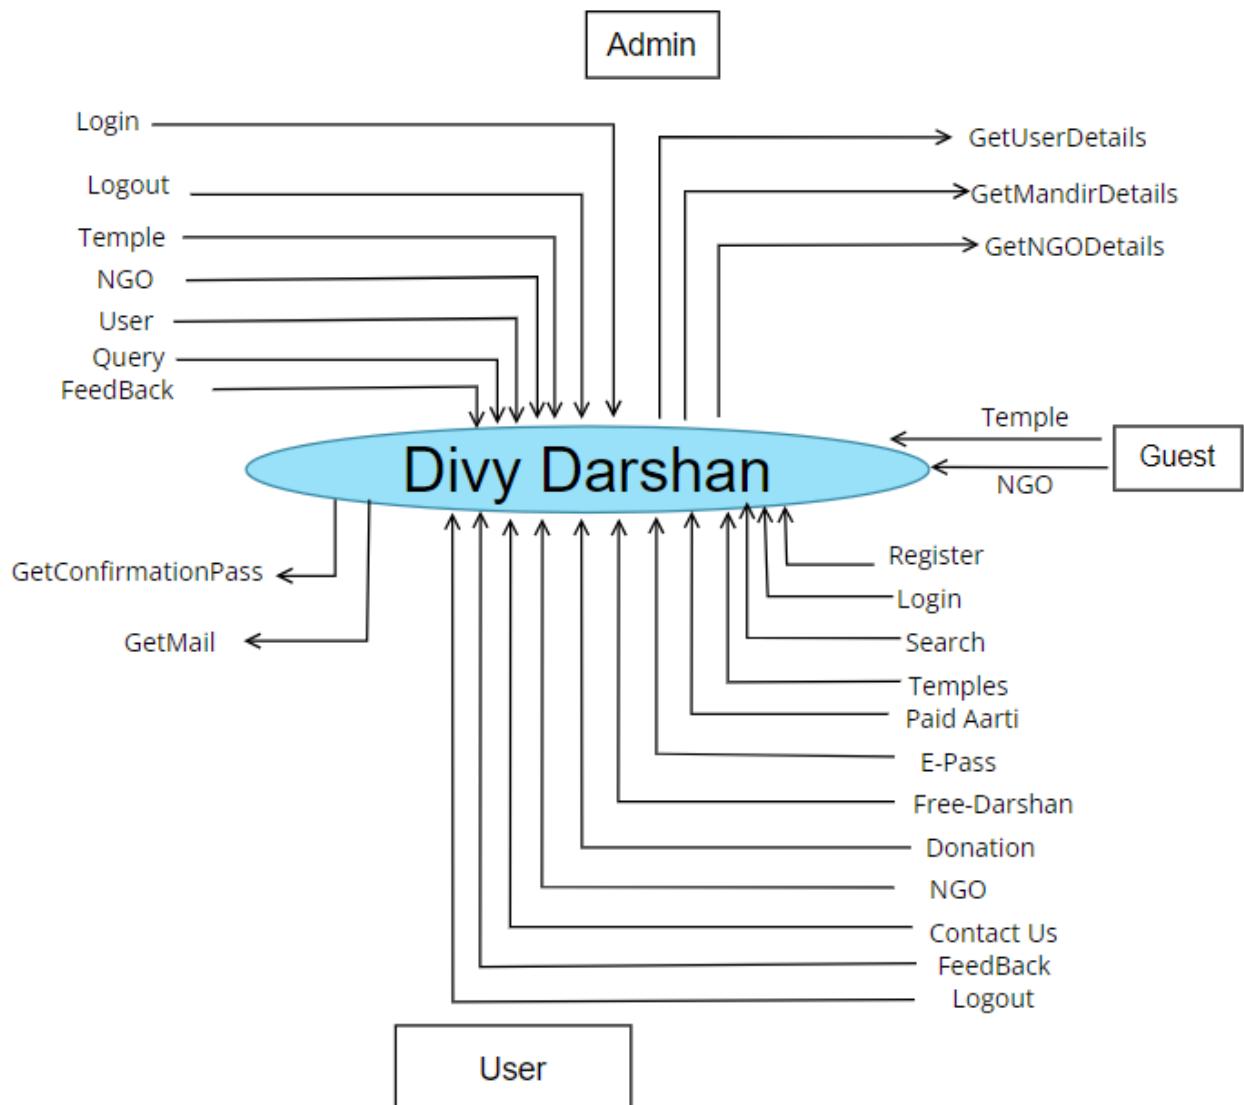

- d. Can manage the temples, NGOs and users associated with our system.
- e. Can view queries of the users and delete the unnecessary queries.
- f. Can view and delete the unnecessary feedback (any violence, or threatened comments are managed by admin)
- g. Can get the details of the temples, users and NGOs who register themselves on our website.

2) The users can:

- a. They can register into the system.
- b. They can login into the system.
- c. They can search for temples and NGOs on our website.
- d. They can also view the location of temples and NGOs associated with our website.
- e. They can do free online darshan of temples
- f. They can book tickets to join live Aarti.
- g. They can book tickets for online paid darshan.
- h. They can book e-passes for visiting the temples.
- i. They can make donations to NGOs as well as temples according to his/her preference.
- j. They can contact our team via email or call.
- k. They can give their feedback, or ask queries if they are facing any problems, they can also give suggestions to us so that we improve our website.
- l. They can Logout from our system, and once they are registered, they don't need to register once again.
- m. They can get the confirmation for the online paid darshan.
- n. They can receive the Mail for donations or e-passes.

3) The guests can:

The guest can view Homepage (in home page guests can view the temple and NGO images), Donor List, upcoming events, They can view the location, listing or searching.

## 4 INTERFACE DESIGN

### 4.1 User Interface

#### 4.1.1 Home Page

The screenshot shows the homepage of the Divya Darshan website. At the top, there is a banner featuring a temple in a snowy mountainous area, the text "दिव्य दर्शन" (Divya Darshan) in large red letters, and a group of people holding certificates. Below the banner is a navigation menu with links: HOME, TEMPLE, NGO, LOCATION, ABOUT US, DONATION, and a LOGIN button. A central banner reads "A घर बैठे भगवान के दर्शन कराते हैं। किसी भी मंदिर के दर्शन करने के लिए केवल चयन करें। और निः गap between you and your devotion ... We bring temple to your home" (At home, you can see the deity. Choose any temple's darshan. Just select the chayan). The main content area is divided into sections: TEMPLE (Rameshwaram Temple, Kedarnath, Vaishnodevi), NGO (GOONJ, NANI KAAL), and CONTACT US (with icons for a question mark, a thumbs up, and a temple). On the right, there is a "Join Us" section with a calendar showing "24-04-2022" and "No Occasion Today", and a table of contributors. At the bottom, there is a "Follow Us" section with social media icons for YouTube, Facebook, Pinterest, and Instagram.

**Join Us**

#### 4.1.2 Temple Selection Page

The screenshot displays the homepage of the 'Divya Darshan' website. At the top, there is a banner featuring a temple in a snowy mountainous area, the text 'दिव्य दर्शन' (Divya Darshan) in red, and a group of people holding certificates. Below the banner is a navigation bar with links: HOME, TEMPLE, NGO, LOCATION, ABOUT US, DONATION, and a LOGIN button.

The main content area is titled 'TEMPLES'. It includes a search bar with dropdown options ('All') and a 'SEARCH' button. A table lists four temples:

Image	Temple Name	Location	Action
	Badrinath	Uttarakhand	<a href="#">VISIT</a>
	Golden Temple	Punjab	<a href="#">VISIT</a>
	Kedarnath	Uttarakhand	<a href="#">VISIT</a>
	Rameshwaram Temple	Tamil Nadu	<a href="#">VISIT</a>

Below the table are navigation buttons: First, Previous, Next, and Last.

To the right, there is a sidebar titled 'Join Us' with a calendar entry for '24-04-2022' and 'No Occasion Today'. It also lists upcoming occasions with their dates and names:

DATE	OCCASION
03-05-2022	Akshay Tritiya
30-05-2022	Savitri Pooja
01-07-2022	Puri Rath Yatra

Avanika Pandey	200
Avanika Pandey	200
Anonymous	200

At the bottom left is a contact section with icons for a question mark, a thumbs up, and a speech bubble. It includes a logo with 'दिव्य दर्शन' and a picture of a temple, along with contact information: Phone (Ph. ) : 99XXXXXX54, 99XXXXXX82, and E-mail : divyadarshankalp@gmail.com. To the right is a 'FOLLOW US' section with icons for YouTube, Facebook, Pinterest, and Instagram.

At the very bottom, a copyright notice reads: Copyright © 2022 KALP Developers.

#### 4.1.3 NGO Selection Page

The screenshot shows the homepage of a website for 'दिव्य दर्शन' (Divya Darshan). The header features three decorative images: a temple at night with snow-capped mountains in the background, the text 'दिव्य दर्शन' in large red letters on an orange background with flowers, and a group of children holding up informational pamphlets in a forest setting.

The navigation menu includes links for HOME, TEMPLE, NGO, LOCATION, ABOUT US, and DONATION, along with a 'Login' button.

### NGOs

A search bar with dropdown options for 'All' and 'SEARCH' is present. Below it is a table listing NGOs:

Image	NGO Name	Location	Action
	Goonj	Delhi	<a href="#">VISIT</a>
	Nanhi Kali	Uttarakhand	<a href="#">VISIT</a>
	Ratna Nidhi	Maharashtra	<a href="#">VISIT</a>
	Smile Foundation	Delhi	<a href="#">VISIT</a>

Navigation buttons for 'First', 'Previous', 'Next', and 'Last' are located below the table.

#### 4.1.4 Location Selection page

The screenshot displays the homepage of the Divy Darshan website. At the top, there is a decorative banner featuring a night view of a temple complex, the text "दिव्य दर्शन" (Divy Darshan) in large red letters, and three smiling Indian girls holding bowls.

The main navigation menu includes links for HOME, TEMPLE, NGO, LOCATION, ABOUT US, and DONATION, along with a LOGIN button.

The central feature is a map of India with states color-coded and labeled. To the left of the map are two vertical columns of images: one showing a painting brush and the other showing food items like a steak and fries.

To the right of the map is a sidebar titled "Join Us" which lists dates and occasions:

DATE	OCCASION
24-04-2022	No Occasion Today
03-05-2022	Akshay Tritiya

## 4.1.6 About us Page

The screenshot displays the homepage of the Divy Darshan website, featuring a header with a temple image, a title 'दिव्य दर्शन' (Divy Darshan), and a navigation menu with links to Home, Temple, NGO, Location, About Us, and Donation. A 'Login' button is also present. The main content area includes sections for 'About Us', 'Join Us', 'Our Team', and 'Contact Us'.

**About Us:**

DIVY DARSHAN is web-based service which intend to connect with the users for online as well as offline darshan. It will also help to connect external users to maintain their website.

We help users to:

- Construct a profile within a bounded system.
- Articulate a list of other users and ngo and the temple connected.
- View the list of Temples and Ngo.

"DIVY DARSHAN" provides a user-friendly interface with the users. Due to corona pandemic has dramatically changed the nature of our social interaction so that's why we provide an online and offline darshan as well as those who want to go to the temple with the minimum capacity of the people with the social distancing and precautions .Our website is associated with various temple and a NGO who works for underprivileged people.so user can join the prayers and arti of the temples they have registered for. We provide online darshan as well as offline darshan in order to establish communication with the user. We also provide various facilities like you can see history of temples, book the ticket for visiting the temple through E-pass, donate money to NGO or temple or combined according to your desire.

Vaishnnodevi

The Vaishno Devi Temple is an important Hindu temple dedicated to Vaishno Devi located in Katra at the Trikuta Mountains within the Indian Union territory of Jammu and Kashmir [8][9][10] The temple is one of the 108 Shakti Peethas dedicated to Durga, who is worshipped as Vaishno Devi.[11] It is one of the most visited pilgrimage centers of India. Every year millions of visitors visit the temple [12][13] During festivals like Navaratri, the count even increases to one crore visitors.[14] Vaishno Devi Temple is one of the richest temples in India. Authors Michael Barnett and Janice Gross Stein says, "Mata Vaishno Devi Shrine in Jammu has an annual income of about \$1.6 million, mainly from offerings by devotees".[15] The temple is sacred to all Hindus. Many prominent saints such as Vivekananda have visited the temple.[16] Navaratri and Diwali are the two most prominent festivals celebrated in the Vaishno Devi Temple. The temple was included in the Jammu and Kashmir state government Act No. XVI/1988, and known as Shri Mata Vaishno devi Shrine Act. The committee nominated by the state government administers the temple and has nine members on its board.

How to reach Vaishnnodevi

**By Air/h2>**  
To fly into Kashmir, take the Srinagar Airport (15 km away), which is well connected to prime Indian cities. Air India, GoAir, IndiGo and Jet Airways operate regular flights for Delhi, Goa, Jammu, Leh Mumbai and Bangalore. After Our Reaching the airport, visitors can hire taxis to Our Reach various cities and towns of Kashmir.

**By Train**  
Jammu Tawi Railway Station, situated at a distance of about 330 km, is the nearest railhead serving the beautiful valley of Kashmir. New Delhi-Jammu Tawi Rajdhani Express, Jammu Mail and Jammu Tawi Express are some of the prominent trains operating from Delhi. From outside the railway station, one can hire private taxis or take state or private buses to Our Reach various places in Kashmir.

**Our Contribution**

We aim to recognize and value the potential of local resource and traditional wisdom of people. Our focus is concentrated on the receiver's dignity instead of the donor's pride. We promote circular economy by ensuring maximum use of each material. We value collaborative efforts with partner organizations to increase effectiveness and scale. Goonj views every entity as equal stakeholder in the process of development rather than observing hierarchical relationships. In the race of development we all are too focused on machines i.e. the big and known issues, ignoring the needles- the most important basic needs.

#### 4.1.15 Query

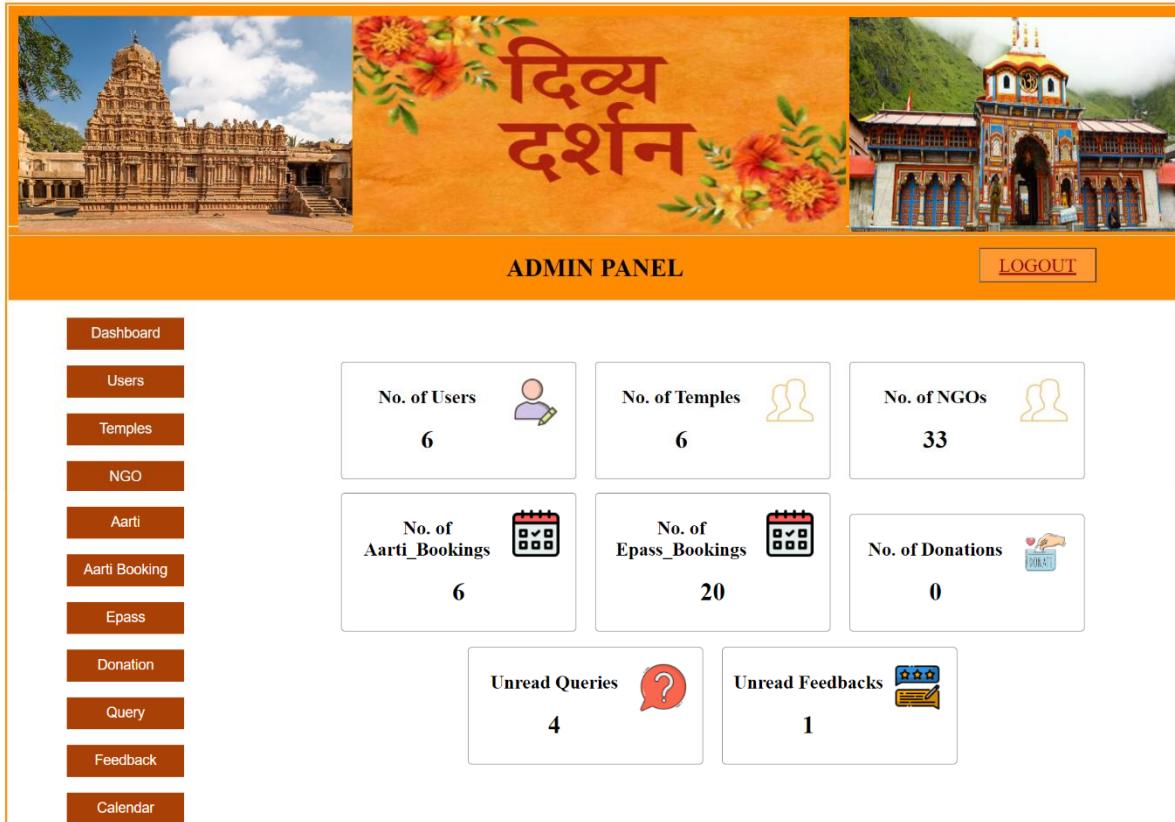

#### 4.1.16 Feedback

## 4.2 ADMIN INTERFACE

### 4.2.1 Dashboard

The dashboard features a top banner with three temple images: a golden temple on the left, a yellow 'Divya Darshan' logo in the center, and a colorful temple on the right. Below the banner is an orange header bar with the text 'ADMIN PANEL' and a 'LOGOUT' button. To the left is a vertical sidebar with ten brown buttons: 'Dashboard', 'Users', 'Temples', 'NGO', 'Aarti', 'Aarti Booking', 'Epass', 'Donation', 'Query', and 'Feedback'. To the right are six data cards with icons and counts: 'No. of Users' (6), 'No. of Temples' (6), 'No. of NGOs' (33), 'No. of Aarti\_Bookings' (6), 'No. of Epass\_Bookings' (20), 'No. of Donations' (0), 'Unread Queries' (4), and 'Unread Feedbacks' (1).

### 4.2.2 User table

The user table page has a similar top banner and orange header bar ('ADMIN PANEL', 'LOGOUT'). The sidebar contains the same ten buttons as the dashboard. To the right is a table showing user details:

user_id	U0
firstname	kalp
lastname	admin
email_id	kalp_softwares@gmail.com
password	admin_kalp
contact_no	9856132462
user_type	admin

Buttons at the bottom of the table include 'Edit', 'Delete', and 'New'. Below the table is a page navigation bar with numbers 1, 2, 3, 4, 5, 6, 7.

#### 4.2.3 Temple table

temple_id	T1
temple_name	Shri Krishna Janmabhoomi
location	Uttar Pradesh
email_id	janambhoomi@gmail.com
contact_no	05652 423888
about	Shri Krishna Janmasthan Temple, also known as Shri Krishna Janmabhoomi temple, is centred on the prison cell where Lord Krishna's parents, Mata Devaki and Vasudeva, were imprisoned by his wicked uncle Kansa. Aside from the prison cell, the Krishna Janmasthan Temple contains other temples devoted to the god. The holy ambience and purity of the temple infuse the heart with confidence that this is the spot where Lord Krishna revealed himself. #Trivia: Several kings destroyed it numerous times before being rebuilt with financial assistance from industrialists. The Krishna Janmasthan Temple sees heavy footfall during holidays such as Janmashtami (The birthday of Lord Krishna), Basant Panchami, Holi, and Diwali.

#### 4.2.5 Aarti booking

The screenshot shows the Admin Panel interface. At the top, there are three images: a traditional Indian temple on the left, the text "दिव्य दर्शन" (Divya Darshan) in the center, and a modern temple on the right. Below this is a navigation menu with links: Dashboard, Temples, Aarti, Epass, Query, Users, NGO, Aarti Booking, Donation, Feedback, and Calendar. In the center, there is a table with the following data:

ticket_id	R6
user_id	U6
aarti_id	A4
join_date	08-05-2022
<input type="button" value="Delete"/>	

Below the table is a numeric range from 1 to 6. At the bottom right of the panel is a "LOGOUT" button.

#### 4.2.6 Epass table

The screenshot shows the Admin Panel interface. At the top, there are three images: a traditional Indian temple on the left, the text "दिव्य दर्शन" (Divya Darshan) in the center, and a modern temple on the right. Below this is a navigation menu with links: Dashboard, Temples, Aarti, Epass, Query, Users, NGO, Aarti Booking, Donation, Feedback, and Calendar. In the center, there is a table with the following data:

ticket_id	E1
user_id	U2
date_to_come	25-04-2022
no_of_people	3
temple_id	T3
<input type="button" value="Delete"/>	

Below the table is a numeric range from 1 to 10. At the bottom right of the panel is a "LOGOUT" button.

#### 4.2.7 Donation

The screenshot shows the Admin Panel interface. At the top, there are three images: a traditional Indian temple on the left, the text "दिव्य दर्शन" (Divya Darshan) in the center, and a modern temple on the right. Below this is a navigation menu with links: Dashboard, Temples, Aarti, Epass, Query, Users, NGO, Aarti Booking, Donation, Feedback, and Calendar. In the center, there is a table displaying a donation record:

D_id	D1
user_id	U2
date	2022-04-04
amount	200
temple_id	T4
ngo_id	
show_name	0

Below the table is a navigation bar with links 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, ..., and a Delete button. At the bottom right of the panel is a "LOGOUT" button.

#### 4.2.8 Feedback

The screenshot shows the Admin Panel interface. At the top, there are three images: a traditional Indian temple on the left, the text "दिव्य दर्शन" (Divya Darshan) in the center, and a modern temple on the right. Below this is a navigation menu with links: Dashboard, Temples, Aarti, Epass, Query, Users, NGO, Aarti Booking, Donation, Feedback, and Calendar. In the center, there is a table displaying a feedback record:

feedback_id	4
email_id	Avantika@gmcom
message	hiii
date	04-08-2022 12:00:00 AM
readmsg	<input type="checkbox"/>

Below the table is a Delete button. At the bottom right of the panel is a "LOGOUT" button.
